

Magic Bubble C 200g

Magic Bubble C 200g is a product of soap bubble concentrate. The end user dilutes and mixes 200g of Magic Bubble C concentrate with water at a certain ratio (1: 7.5) to make a solution, and then uses the solution for large bubble bubbles. The package of the Magic Bubble C 200g is a pouch spout type as shown below and for a method of diluting with water, it is designed to make the solution easily mixing after putting 1,500ml of water into a 2 liter empty PET bottle.
